In my opinion, this is quite possible. To do this: 1. Create (or import (via File - Import) from another source the image that needs to be changed. 2. Open the file in Adobe Photoshop and go to the Channels tab. 3. Holding down the Shift key, right-click inside the frame of one of the channels and select the Delete Channel item, after which we repeat this operation with channels located in other places. This will remove all channels and all image content.
