Package Version Broken, Compiler, Compiler\Delphi, RSP-24079 ... Delphi XE8/10.2 - 64-bit Midas/MidasLib Issue, Data, Data\Midas, RSP-21283. You will get an error message "The version of the package is invalid". If the Midas component is installed in the system, you can update it as described below. If there is no Midas component, you can also update it. If an error occurs when running the error checker in XE8, then click "Yes" in the dialog box that appears and the component will be updated without loss of data. If this is not possible, the Midas component can be updated manually.
