If you want, you can modify the location of the virtual folder. Uitleg: Download, install and use the program. Select the files and

System Requirements:

MorphOS At the MorphOS port, we considered hard limits for our target system as well as for system resources in the emulator. On the system side we considered the following: Each system needs to have at least 128 MB of RAM. A single system can have up to 512 MB. The minimum kernel version should be 3.6.3. We recommend at least version 3.8.4. The minimum 64-bit disk driver versions should be 10.00.00.01 and 10.00.00.02
