## Countdown MAX! Crack+

Countdown MAX! is a cross-platform, freeware, no-install personal information manager. It offers a useful countdown feature, which can be used with any time-based events, appointments, or reminders. In addition to this, the app supports multiple timers and so it is perfect for counting down to multiple events. It can be used on any Windows-based platform, and there are no limits to how many timers you can monitor. Features: - Support for multiple countdown timers - Support for as many calendar events and reminders as you like - Can be used on a Windows-based platform - Can count down to as many events or reminders as you like - Can save your countdown timers to a file, making it portable - Allows you to easily copy your countdown timer's settings - Allows you to easily toggle all of your countdown timers on and off - Allows you to easily move your countdown timers around the screen - Allows you to easily change all of your countdown timers' properties at once - Allows you to easily set up your countdown timer's background color - Allows you to easily set up your countdown timer's border color - Allows you to easily set up your countdown timer's font color - Allows you to easily set up your countdown timer's border size - Allows you to easily set up your countdown timer's position and size - Allows you to easily set up your countdown timer's transparency - Allows you to easily set up your countdown timer's size - Allows you to easily set up your countdown timer's font - Allows you to easily set up your countdown timer's time format - Allows you to easily show and hide all of your countdown timers - Allows you to easily set up the volume of your countdown timers - Allows you to easily lock the size of your countdown timers - Allows you to easily set up your countdown timer's display week days - Allows you to easily set up your countdown timer's display weekend days - Allows you to easily set up your countdown timer's display weekend days - Allows you to easily set up your countdown timer's display days - Allows you to easily set up your countdown timer's display days - Allows

## What's New in the?

Countdown MAX! is a powerful and easy to use tool for creating, editing and maintaining multiple countdown timers at once. The tool provides more than 20 customizable timers templates (using full screen with scroll bars) that can be easily modified by writing the caption name, choosing colors, date/time and dimensions. Countdowns can be set to: Date, Week, Day, Hour, Minute, Second, Numerals, Numerals - Weekdays, Numerals - Month, Numerals - Day of Month, Numerals - Date, Numerals - Weekday of Year, Numerals - Day of Week of Year, Numerals - Year. It can be used on any background image, and can be customized in many ways - such as change the font, background, border and panel width. Every time you create a new countdown the options will be saved in a config file in the same folder as countdown MAX!. You can save up to 2 countdown configurations. Countdown MAX! will show you the statistics of all timers in the form of: Table, Week, Weekday, Day, Day of Week, Month, Month of Week, Year, and Year of Week. The statistics can be exported to your spreadsheet or database with one click. Countdown MAX! has the feature of locking the window position. When moving the window (for example, moving it to the right side of the screen), it will stay there. Features: - Creating and editing multiple timers - Counting down to multiple events - Support for Date, Week, Day, Hour, Minute, Second, Numerals, Numerals - Weekdays, Numerals - Month, Numerals - Day of Month, Numerals - Date, Numerals - Weekday of Year, Numerals - Day of Week of Year, Numerals - Year - Import and Export Countdowns from/to Excel - Can be customized in many ways - Locking the window position - Viewing all statistics in the form of table, week, weekday, day, day of week, month, month of week, year, and year of week - Countdowns are saved to a config file - Support for scroll bars and full screen - Alerts when time's up - Import of all settings and countdown times from previous countdown - Automatically updates on timer completion - Complete user interface and navigation - Press the Alt key to see all options and advanced settings - Options in the upper menu are all adjustable - Mouse Wheel Scrolling to move the window around - Export & import counts to/from Excel - Import & Export countdowns from/to spreadsheet or database Description: C2S is a simple and practical timer for Windows.
