The rules of a well-informed patient]. Proper knowledge of the risks and benefits of HRT in breast cancer patients is of great importance for the patients. This review provides the information needed to assess risks and benefits of HRT in breast cancer patients. Current guidelines and clinical practice guidelines for HRT in breast cancer patients were retrieved from Pubmed and the Cochrane library. Guidelines were summarised. Women with a history of breast cancer who are at high risk of developing a new primary breast cancer, or with a personal history of breast cancer, are most likely to benefit from HRT. HRT reduces the risk of local recurrence. The benefits of HRT on survival are less clear. HRT is associated with increased risk of venous thromboembolism. For women who are interested in using HRT, the most important advice is to be well informed and to seek the advice of a trained HRT specialist.Outdoor Activities Nature Sierra At Tahoe Sierra At Tahoe Be the first to experience the warmth and excitement of Lake Tahoe as you ride through beautiful landscapes filled with majestic rock formations, expansive trails, spectacular views and more. *Trip Quote Trip Quote Group/Individual Number of Riders Sierra At Tahoe Sierra At Tahoe Be the first to experience the warmth and excitement of Lake Tahoe as you ride through beautiful landscapes filled with majestic rock formations, expansive trails, spectacular views and more. *Trip Quote Trip Quote Group/Individual Number of Riders Sierra At Tahoe Sierra At Tahoe Be the first to experience the warmth and excitement of Lake Tahoe as you ride through beautiful landscapes filled with majestic rock formations, expansive trails, spectacular views and more. *Trip Quote Trip Quote Group/Individual Number of Riders Sierra At Tahoe Sierra At Tahoe
