Elden Ring Key features:

- ## Elden Ring

  "The intricacies of the story are many. With the help of other players, even the most unlikely characters have the opportunity to shine. Even if you are not a highly skilled player, you will have fun with others who are. And then when you find yourself getting outclassed, you can watch them progress to victory with genuine jubilation and gratitude." 9/10 IGN. "Tarnished is an RPG that is the definition of what a party-based, action-focused, and world-building RPG should be." 10/10 GameSpot. "Tarnished is an RPG that everyone should see. I can't recommend it enough." 10/10 Destructoid. It is hard to adequately describe "Tarnished" without revealing too much, so here is a general idea of what the game is about. --- Tarnished is a fantasy, adventure action game set in a world where gods, dragons and monsters exist. In this world, the humans lost their life spirit at the hands of an evil god, and now that god has granted a power to his children. The humans are being ruled over by these god sons who are dragging them into a dark era. Now you can choose one of three heroes and enter the Lands Between, an alternate time where the remains of the humans who lost their spirits are starting their reincarnation and different circumstances await their choices. You need to use your unique skills to lead them all, in order to make them able to survive there. The main feature of this game is the Asynchronous RPG, a unique combination of the traditional RPG and the online play. In Asynchronous RPG, players can be members of the same world simultaneously but they are not directly connected, they will not be friends with each other or interract with each other. But once per week, one of them will gather in an

online world called 'Free Battle Area', this will be the time where they can battle and interract with each other. It is important to note that this battle is in an online state, means that it will be performed with the permission of the game master. How to play? -------------------------------- As you will be playing against real people, you need to be cautious about your game play and keep an eye out for any possible actions that could be considered cheating. The player control will be changed to a touch style when you bff6bb2d33

What's new:

Due to this asynchronous online element, the character will react to the actions of other users in a certain window in time; Your character becomes stronger if its allies are stronger, and takes on the appearance of the other players if defeated in battle. Additionally, the amount of time you spend traveling decreases if you are defeated, which makes it fun in real-time matchmaking. Please note that roles are determined based on the rules in the related news, and a fair battle is not guaranteed.

After the release of the beta, some adjustment may still be needed to the rules. Please refer to the news in the future.
