4+ Screenshots Description Normally, all the blanks are same size, so no matter what program you're using, your writing spaces are the same and it's easy to go back and forth between your writing program and the many blog or forum apps we offer. But we don't just want you to be able to type perfectly, we want you to be able to work faster and more accurately than ever before. Simplode Suite will give you what you've been asking for: Set up the proper space for the word processor you use. If you're using Keynote, set up the Keynote space for you. Let your writing app help you automatically complete your sentences with Cut and Copy. Do it from your desktop, your iPhone, or from the SimplodeSuite applications. Your program *won't* mess up your perfect dots-per-inch settings. And you can change the dots-per-inch you're using at any time. You can have your dots per inch set at 200 dpi and then change them to just 80 if you're dealing with a big project. Let Simplode automatically do those fine details: align your symbols, spot all of your typos, and autoflush your typing whenever you're ready. Switch between Simplode Labs programs with ease. Does your writing app not have annotation, time-sign, and more? Open Simplode Suite, search by keyword, and you'll find the program you need. Find new features that your app hasn't offered before. Couldn't find the level tool in your writer? We've got it. Did it need a different icon? We fixed that. With Simplode Suite, we do the heavy lifting so you can be productive and enjoy more of your life. Features include: - Easy set up - Automatic completion - Moving shapes like highlights and text boxes - Annotation - Multiple journals - 90-Second Copy and Paste - Duplicating hot spots and hot corners - Text area equalizer - Clipboard auto-update - Unicode support - Automatic results via OCR - Share via Dropbox - (Double) click anywhere to delete and copy - Manage connections via Wi-Fi and Bluetooth (1 - 8 supported) -
