## **Assassin's Creed Brotherhood Update 1.03 - AGB Golden Team Cheat Engine**

With Assassin's Creed: Brotherhood, the game focuses on the life of the first assassin, Altair. Altair starts out as a street urchin who becomes a trained assassin who works under the tutelage of his mentor, Shai. The focus of the story is Altair's struggle to balance his training and role as an assassin with the affection and loyalty he holds for his mentor. With Assassin's Creed: Brotherhood, there is a set of tutorials which are offered as background to the game. The following are short tutorials of the five main protagonists in Assassin's Creed: Brotherhood, which are used to introduce the player to the terms and controls of the game. Altair is the main protagonist of Assassin's Creed: Brotherhood, who, after a lifetime of training as an assassin in the city of Altair, eventually was captured and imprisoned. While Altair was being held prisoner, the assassins' leader decided to execute him, but was spared at the last minute. Shai is one of the protagonists of Assassin's Creed: Brotherhood, with two age-specific alternate costumes. He was born in a large city in the country of Javlin, which was destroyed by a massive earthquake. He was raised in the small country of Gascony, which was later conquered by the Templars. There are a total of four types of items that can be picked up in Assassin's Creed: Brotherhood ; crafting materials, weapons, tools, and consumables (Alchemist kits, spent gunpowder and other consumables). Only the first three of these types can be

used for crafting, while the latter two are used for energy and consumables, respectively. 5ec8ef588b
