

Philly Joe Jones Solo Book ##TOP##

Being a natural genius he was a founding member of the Count Basie Orchestra. With the exception of Bill Evans in the quartet, Bird struggled with the vocal aspects of his craft. The drummer, a self taught drummer who defied the odds of becoming a great drummer based on his poor singing ability, played beautifully as Bird crooned on the famous "Bach's Counterpoint" number. The soloist transcends the standard set by the bassist. Though inferior, he also transcends the time frame. Bird was born with two strikes against him, a nasal voice, and a certain disdain for singing, which would plague him throughout his career. Even at his most talented, Bird failed to master the art of the solo. But, at the time he never beat out Philly, with his jazzy backing, Philly portrayed the expressive, poetic ability the saxophone had to offer. In this performance they capture the essence of the "A Love Supreme" chords. "Bach's Counterpoint" is a masterpiece of melodic mastery as well as harmonics, time, and groove. CharlesEvan As a fourteen-year-old teenager he recorded the album, Birth of the Cool with the rhythm section of the vocal group, Drifters. Virtually unheard from that day to this day, the sonic will was once again taken with Philly, and the album was released. This album would later be recognized as a classic. Other members of the rhythm section were the guitarist Eddie Calhoun and the bassist Red Garland. The lyrical content of the 1960s was more introspective than in the Swing Era and this enhanced the rhythm section's ability to play "cool" music. But, the few soloists in the album were more innovative than the rest of the group.
