January 28, 2022 - fusion-plugin-rpc . Retrieve
data on the server and client using an RPC style
interface. RPC is the natural way to express this
on the server side. To create an RPCClient
instance, create an RPCClient using the
RPCClientFactory class and call its
RPCClientCreate method: // create an RPCClient //
RPCClientFactory.getRpcClientFactory() createClie

```
nt(this.addRpcClientToService(this.service); //
create an RPCClient instance RPCClient f = new
RPCClient( this.service); // add RPCClient to
service f.addRpcClientToService(this.service); //
set property client RPCClient f.setClient(this);
RPCClient service = new RPCClient(this.service); //
