Advogados en la Naturaleza: Preservación Arquetípica y Control.Q: Is it possible to convert a list of sets to a set of sets I have a list of sets in Scala val x: Set[Set[String]] = Set(Set("a","b"), Set("c"), Set("d"), Set("e")) Is there a way to convert this to a single set that is a Set of sets A: Yes, just use map: Set(Set("a","b"), Set("c"), Set("d"), Set("e")).map(_map(_toSet)) You could also use other methods to turn an arbitrary list to a Set, but you'll need to decide what you want to do with an empty list. [Unsuspected infection of cells of a human tumor by vaccinia virus]. The authors describe a possible means to manipulate the foreign protein repertoire of human tumor cells. In this case, a human cervical carcinoma cell line (SAS) was found to lack antigenic determinants of its growth after in vitro infection by vaccinia virus. These cells could therefore be used to

two cases of sigmoid diverticulosis as a rare complication of alcoholism. Conversely, the term "diverticulum" was used by the English surgeon Thomas Woolson as early as 1746 to describe a mesodiverticular mass. In the middle of the nineteenth century, Baron von Rokitansky proposed that the etiology of diverticulosis was caused by an exaggerated colonic spasm and that this condition developed secondarily as a result of chronic constipation. He coined the term "diverticulum" to describe these ectatic lumina that usually occurred in the sigmoid colon. The first clinical presentation of colonic diverticulosis was described by Van Praagh in 1876, who reported a patient with recurrent complaints of colicky pain in the lower right quadrant of the abdomen. Following von Rokitansky's proposal, the following "classification" of diverticulosis was proposed by Taussig: diverticula were categorized by the number of intestinal layers they involved, i.e., as saccular (Type I
