

# StorURL Crack License Key Full Download [Latest]

## StorURL Crack + For PC (April-2022)

- A powerful and efficient application for managing bookmarks - Supports a new URL creation, drag and drop, importing - Export to IE - Tools for browsing the sites stored in the database - Ability to organize the bookmarks by category and sub-category - Supports multiple languages - Ability to import/export your bookmarks - Save bookmarks directly to your computer - Save bookmarks in plain text format - Save in HTML format - Free trial version StorURL is a lightweight software application that helps you store and organize your favorite URLs. It sports a clean and simple layout that offers quick access to all its main functions. A new website can be added to the database by providing a valid URL, title and description. It is possible to create multiple categories and include subcategories for managing your bookmarks easily. You can manually enter the URLs in the dedicated dialog, or drag and drop them in the primary panel. The application provides importing options, as it allows users to import the bookmarks from Mozilla Firefox, Opera and Internet Explorer, or add a new one to the list. Exporting the created database to Internet Explorer is also possible. Bookmarks can be edited, copied and removed from the list, and you can save the selected category or all of them to HTML file format. The application allows users to open the sites directly from the primary panel, or preview the web content with the built-in browser. Moreover, you can quickly find a bookmark in the list (thanks to its built-in search engine), keep your information private by setting up passwords, and scan the links to check their validity. Customizing the looks of the application can be done by selecting a transparency level, using large fonts, and picking a foreground and background color. Hotkeys are available for a better control of the entire process, but they cannot be reassigned. During our testing we have noticed that the program is able to create a database efficiently and without errors throughout the entire process. It also manages to remain light on the system resources, so it doesn't affect the overall performance of the computer. Overall, StorURL provides a user-friendly environment to help you store URLs quickly and with

minimum effort. It's easy to work with and suitable for novices and professionals alike. StorURL Description:  
- A powerful and efficient application for managing bookmarks - Supports a new URL creation, drag and drop, importing - Export to IE
