During the day, groups with prepared remarks are welcome to the site. At night, a short walk from the parking lot is a memorial site that contains 2,500 tiny bronze stars. The star was brought from the U.S. flag and placed at each grave site. A black granite marker at the grave site also pays tribute to the fallen soldier. We are the only nightclub in the world with a dedicated resident cryptozoologist, and we are not afraid to tell you that when you get to Universal's scream park, you will be amazed at the amount of creatures that are being reported, including bigfoot, werewolves, angels, angels, ethereal beings, elves, aliens, and of course, unicorns. So don't miss out! Our resident cryptozoologist has had many experiences at Universal's scream park. Some have

been incredible, but some have been rather disappointing. Her experiences at Universal's scream park have allowed her to construct one of the most unusual cryptid stories of all time: As the name implies, the cryptid is a creature that is part man, part monster, and this may be why you will find her fearlessly reporting. So no matter how insane the creature, we will likely be reporting on it, and if it is the elusive bigfoot, perhaps you will be able to help us with it, but even if it is not bigfoot, you can at least call us and tell us what it was. (It can't be too normal, because we wouldn't be reporting it).
